Profile

A Competent, hardworking & enthusiastic individual capable of working efficiently as an individual or within a team. I am approachable & aim to establish good working relationships with my colleagues. I have completed 14 out of 16 modules in a BSc computer games development course & pride myself in my ability to adapt myself towards generating innovative ideas and solutions to solving problems. I am keen to learn more & different approaches to achieving what needs to be done.

Skills

Computer	Microsoft office (Word/Excel/Access/Project/Publisher/Visio) Visual studios (c++/OpenGL/DirectX) Unreal Engine 4 GitHub Linux Mint (Python, CLI)

Additional Information

I enjoy playing computer games most recent being Final fantasy 14 which has encouraged me to recently learn some basic Node.js, Java & AngularJS programming in order to modify, test & update my own version of a Non-copyright GitHub website so those playing the game can have access to the most UpToDate information about the game through the website.
